Summary

I'm a dedicated Software Engineer with 6 years of Front-End development experience using ReactJS and React Native. I excel in creating user friendly Web applications and passionate about leveraging Agentic AI technologies to enhance software development capabilities.

Experience

Photon Interactive Indonesia

08/2021 – 04/2026

My role as Software Engineer for project-based IT Consultant company. I specialize in Frontend dev with tech Stack React JS and React Native.

Jakarta

PHTN.AI (Hubspot)

- Developed and maintained responsive frontend applications using Hubspot Hubl, HTML, CSS, and JavaScript.
- Developed global Hubspot module navigation (header, footer), ensuring mobile responsiveness.
- Developed legal pages (Terms of Service, FAQ) using Hubspot Rich Text, along with accordion functionality.
- Implemented agentic AI (Cursor AI) and prompt engineering strategies to accelerate development.
- Implemented Figma AI code extension Builder-IO to speed up UI development.
- Ensured code quality through SonarQube, linting, and unit testing (JavaScript).
- Collaborated with cross-functional teams for business requirement discussions.

Viome (React Native)

- Developed and maintained frontend mobile applications using React Native.
- Developed AI Screen Chat features (Make a Recipe, Check My Meal).
- Integrated AI chat library and ensured the scoring UI accurately represents AI-generated responses.
- Collaborated with cross-national developers and reviewed each other's pull requests (peer review).
- Integrated AI chat library and ensured scoring UI accurately represents AI-generated responses.

BJ's Wholesale (React Native)

- Developed responsive web applications using ReactJS.
- Developed and maintained responsive mobile applications using React Native.
- Developed feature for gift card validity checking and internet connection checking using @react-native-community/netinfo, etc.
- Ensured code quality through rigorous linting and unit testing.
- Collaborated with cross-national and cross-functional teams.

YUM KFC (React Native)

- Developed and maintained responsive mobile applications using React Native.
- Utilized Contentful for copytexts.

- Integrated APIs using GraphQL.
- Ensured code quality through rigorous linting and unit testing.
- Collaborated with cross-functional teams.

Eye Care (React JS)

- React Js web app development with reusable component paradigm by leveraging functional components using Next Js. • Deploy new feature with reusable component and functionality with atomic design.
- Integrate API services using axios.
- Implement designing applications using JSX, Material UI and React-styled component.
- Manage and create good quality of code using Lint, unit test (Jest and Enzyme) and Sonar.
- Involved in feature development, PR reviews, and code merging activity.

AAFES (React Native)

- Developed and maintained mobile applications using React Native.
- Developed feature age restriction banners for age +18 products based on REST API data.
- Ensured code quality through rigorous linting and unit testing.
- Collaborated with cross-functional teams (QA, PM, BA).

Intellitech (React JS)

- Developed and maintained responsive frontend applications using ReactJS.
- Developed internal CMS pages along with CRUD functionality.
- Developed security manager features, allowing admins to grant permissions to users to access specific features and access types on the page.
- Ensured code quality through rigorous linting and unit testing.
- Collaborated with cross-functional teams.

Astra International (Under XSIS Mitra Utama)

React JS Frontend Developer

06/2019 – 07/2021

Jakarta

Natacara.id, and Internal CMS App

- As a fresh graduate, developed and maintained responsive frontend applications, including Natacara.id, using ReactJS.
- Ensured code quality through linting.
- Collaborated with BPA to understand business requirements, and with QA to test delivered features.

Education

Bachelor of Science in Physics, Padjadjaran University

08/2014 – 05/2019

Jatinangor

SMAN 1 Dayeuhkolot

2011 – 2014
